

1st April 2020
Expo Centre | Lahore

9th International Safe Secure Pakistan Conference
Highlighting Innovations
in Safety & Security

As environment has become more globalized and interconnected, individuals, organizations, and nations are becoming more vulnerable. Dynamic risks and challenges require national-based safety and security systems to include new practices, initiatives, technological advancements and revised standards with more focus on meeting safety & security requirements.

This year, the objective of our conference is to highlighting innovations for the recent safety and security provisions in the country. It is aimed to bring together local and international experts to foster the discussions on more practical implications of the latest technologies that are essential for addressing national safety and security issues.

Safe Secure Conference serves as not only a business networking place but more importantly as a crucial knowledge-sharing platform that strengthen the competence and ability of both public and private sector workforces. The Conference will also create awareness about coping with pre and post safety & security challenges related to people, property and assets.
